Dear Applicant:

This application packet contains information and the required forms for you to use in submitting a new application for funding under 3 programs authorized by the Individuals with Disabilities Education Act (IDEA). This packet covers seven competitions under the Research and Innovation to Improve Services and Results for Children with Disabilities (CFDA 84.324) program; Technical Assistance and Dissemination to Improve Services and Results for Children with Disabilities (CFDA 84.326) program; and Technology and Media Services for Individuals with Disabilities (CFDA 84.327) program. A chart listing pertinent information, including the closing date for the competition, can be found on page B1 of this package.

An application for an award must be: (1) hand-delivered, submitted electronically, or mailed by the closing date; and, (2) have an original signature on at least one copy of the assurances and certifications (Part IV of the application form). It is also important to include the appropriate Catalog of Federal Domestic Assistance (CFDA) numeric and alpha in Item #3 on ED Form 424 (e.g., CFDA No. 84.324D).

Please note the following:

- **APPLICATION SUBMISSION.** Based on the precautionary procedures the U.S. Postal Service is using to process mail, we are experiencing delays in the delivery of mail to the Department. Therefore, you may want to consider sending your application by overnight courier or submitting your application electronically.
- **MAXIMUM AWARD AMOUNT.** In addition to providing detailed budget information for the total grant period requested, the competitions included in this package have a maximum award amount. Please refer to the specific information for the priority/competition to which you are submitting an application (i.e., Section C of this package). Please be advised that for the priorities in this package, the maximum award amount covers all project costs including indirect costs.
- **STRICT PAGE LIMITS.** The competitions included in this package limit the Part III Application Narrative to a specified number of double-spaced pages. This page limitation applies to all material presented in the application narrative -- including, for example, any charts, tables, figures, and graphs. (Please refer to the specific requirements on page limits for the priority/competition to which you are submitting an application - i.e., Section C of this package). The Department will reject, and will NOT consider an application that does not adhere to the page limit requirements for the competition.
- **FORMAT FOR APPLICATIONS.** Please note that additional information regarding formatting applications has been included on Pages D-3 and 4 of the "General Information on Completing An Application" section of this package.
- **PROTECTION OF HUMAN SUBJECTS IN RESEARCH.** The discretionary grant Application Form 424 requires applicants to indicate whether they plan to conduct research

involving human subjects at any time during the proposed project period. The Protection of Human Subjects in Research Attachment is an integral part of the ED 424 form. It includes information that applicants need to complete the protection of human subjects item and, as appropriate, to provide additional information to the Department regarding human subjects research projects. Additional information on completing the protection of human subjects item is also available and can be accessed on the INTERNET at:

- **RESPONSE TO GPRA.** As required by the Government Performance and Results Act (GPRA) of 1993 OSEP has developed a strategic plan for measuring GPRA performance. Each program included in this announcement is authorized under Part D National Programs of the Individuals with Disabilities Education Act. A copy of the Part D GPRA plan is included in this package. In addition, OSEP has developed a website (<http://www.air.org/gpra/newhome.htm>) with GPRA information including instruments used to evaluate our indicators. Applicants are encouraged to consider this information as applications are prepared.
- **COPIES OF THE APPLICATION.** Current Government-wide policy requires that an original and two copies need to be submitted. OSEP would appreciate receiving three additional copies to facilitate the peer review process. This would mean an original and two copies need to be submitted and we would appreciate your voluntarily submitting an additional three copies (six applications in all).

PRIORITY DESCRIPTION  
AND  
SELECTION CRITERIA  
FOR THE  
RESEARCH AND INNOVATION TO IMPROVE SERVICES AND RESULTS  
FOR  
CHILDREN WITH  
DISABILITIES PROGRAM

**RESEARCH VALIDATION AND IMPLEMENTATION PROJECTS FOR**  
**CHILDREN WHO ARE DEAF-BLIND**  
**(CFDA 84.324D)**

**DEADLINE: 08/27/03**

**ABSOLUTE PRIORITY:**

Background:

New evidence-based research findings, including those related to hearing impairment, visual impairment, and other disabilities, have not been rapidly or systematically applied to children who are deaf-blind. These children are at high risk for exclusion from evidence-based research practices that promote high student achievement.

Priority:

This priority supports a cooperative agreement to validate evidence-based research findings by translating those findings into procedures usable by personnel serving children who are deaf-blind, implementing new intervention procedures in home and community settings, and evaluating the effectiveness of the new procedures in meeting the early intervention and educational needs of children who are deaf-blind.

Projects are expected to address one or more of the following areas of investigation are:  
(a) assessment of communication and cognitive development in infants, toddlers, and young children who are deaf-blind; (b) improving communication and language development for children who are deaf-blind including alternative forms for those children who do not use signs or speech; (c) learning strategies that encourage systematic instruction with a clear focus on targeting specific educational outcomes and producing knowledge on how these outcome are achieved and replicated; (d) use of innovative technology to increase access to education and enhance learner performance; (e) transition from school to work; and (f) improved strategies and models for the use of paraprofessionals, including the intervenor. An intervenor is a term used in the deaf-blind community to describe an individual who provides direct support for all or part of the instructional day to a student who is deaf-blind.

The project must:

(a) Form a consortium with one or more research institutions at other locations to (1) validate new approaches with multiple children and in multiple settings and (2) replicate initial evaluation findings.

(b) Identify specific research findings and the interventions or strategies based on those findings that will be implemented and evaluated;

(c) Carry out the project activities within a conceptual framework that provides a basis for the areas of investigation, the interventions or strategies to be implemented and evaluated, the evaluation design, and the target population;

(d) Produce a variety of descriptive and outcome data, including (1) information regarding the settings, the service providers, the children, and if applicable, their families, targeted by the project (e.g., age, disabilities, skill and ability levels, ); and (2) multiple, performance outcome data regarding the children and families who are the focus of the interventions or strategies;

(e) Address causal questions by employing randomized experimental designs, to the extent appropriate; and

(f) Translate research findings into demonstrable practice that provides the informational bridge necessary to (1) move research into practice, and (2) reduce lag time between research and implementing practice for children who are deaf-blind.

#### Fourth and Fifth Years of Project:

In deciding whether to continue this project for the fourth and fifth years, the Secretary will consider the requirements of 34 CFR 75.253(a), and in addition --

(a) The recommendation of a review team consisting of experts selected by the Secretary which review will be conducted during the last half of the project's second year in Washington, DC. The project must budget for the travel associated with this one-day intensive review;

(b) The timeliness and effectiveness with which all requirements of the negotiated cooperative agreement have been or are being met by the project; and

(c) The degree to which the project's design and methodology demonstrate the potential for advancing significant new knowledge.

**PROJECT PERIOD:** Up to 60 months.

**MAXIMUM AWARD:** The maximum award amount is \$205,000. We will reject any application that proposes a budget exceeding the maximum award for a single budget period of 12 months.

**PAGE LIMITS:** Part III of an application submitted under this notice, the application narrative, is where you, the applicant, address the selection criteria that reviewers use in evaluating your application. You must limit Part III to the equivalent of no more than 50 pages, using the following standards:

- A "page" is 8.5" x 11" (on one side only) with one-inch margins (top, bottom, and sides).
- Double-space (no more than three lines per vertical inch) all text in the application narrative, including titles, headings, footnotes, quotations, and captions, as well as all text in charts, tables, figures, and graphs.

- Use a font that is either 12-point or larger or no smaller than 10 pitch (characters per inch).

The page limit does not apply to Part I, the cover sheet; Part II, the budget section, including the narrative budget justification; Part IV, the assurances and certifications; or the one-page abstract, the resumes, the bibliography or references, or the letters of support. However, you must include all of the application narrative in Part III.

We will reject any application if --

- You apply these standards and exceed the page limit; or
- You apply other standards and exceed the equivalent of the page limit.

**CENTER ON OUTCOMES FOR INFANTS, TODDLERS, AND  
PRESCHOOLERS WITH DISABILITIES**  
**(CFDA 84.324L)**

**DEADLINE:** 08/27/03

**ABSOLUTE PRIORITY:**

Background:

The NCLB Act and the IDEA Amendments of 1997 emphasize accountability in improving results for children with disabilities. With the Administration's "Good Start, Grow Smart" early childhood initiative, programs serving young children such as Head Start, Early Head Start, and State-funded Pre-Kindergarten programs are beginning to develop standards, outcome measures, and accountability systems to track the progress of the children they serve. As part of this emphasis on accountability for results, reliable and valid outcome measures designed for young children with disabilities and their families must be developed and implemented.

Priority:

The purpose of this priority is to fund a cooperative agreement to support a center to provide national leadership in the development and use of outcome information by early intervention and preschool special education programs and personnel. This Center must identify current and best practices in measuring outcomes for children with disabilities birth through five years of age and their families, served under Parts C and B of IDEA, including performance indicators and assessment methodologies. The Center must accomplish this mission through a combination of research, technical assistance, dissemination, collaboration, and other leadership functions.

The Center's research activities must include, but are not limited to:

- (a) Conducting an annual survey of State educational agencies (SEAs), local educational agencies (LEAs), and Part C Lead Agencies (LAs) to determine their current progress in identifying outcomes for children with disabilities birth through five years of age and their families, and in developing performance indicators and assessment methodologies to measure the progress of children birth through five years of age and their families served under IDEA (including determining the age range of the children in accountability systems and whether or not they are aligned with other accountability systems such as Head Start, State Pre-K, and K-12 accountability systems);
- (b) Evaluating State and local policies and practices to determine valid and technically adequate approaches to measuring the progress of young children with disabilities (in areas such as cognition, pre-reading and language skills, communication, social-emotional development, adaptive/self-help skills, and physical development);

(c) Conducting an annual review of State reports and Parts C and B data to track the development of State Parts C and B accountability systems and the status of State data systems;

(d) Synthesizing research on relevant topics such as the technical adequacy of outcome measures for young children vis-a-vis the range of disabilities defined under IDEA; the variation of eligibility criteria for services among States; the measurement of satisfaction of parents regarding children's progress; the impact of families on children's outcomes; the methods for aggregating data from child and family measures for use at the local, State, and Federal level; and procedures for data analysis and reporting;

(e) Conducting, collaborating in, or commissioning focused research studies on topics related to outcomes and measurement of the performance of programs serving young children with disabilities and their families, including work to ensure that technically adequate measures of outcomes for young children with disabilities are identified or developed; and

(f) Conducting or commissioning a synthesis of the measures and approaches to measurement used for assessment of family outcomes, including work to ensure that technically adequate measures of outcomes for families are identified or developed.

The Center's technical assistance and dissemination activities must include, but are not limited to:

(a) Preparing and disseminating reports and documents on research findings and related topics;

(b) Maintaining a world wide Web site with relevant information and documents in an accessible formats for individuals with disabilities;

(c) Conducting national and regional meetings, in collaboration with other centers such as the National Early Childhood Technical Assistance Center, the Regional Resource Centers, and the National Center for Special Education Accountability Monitoring, and the national and regional parent technical assistance centers to assist Part C lead agencies, SEAs, LEAs, and local agencies in working collaboratively with stakeholders to develop accountability systems to measure the progress of children birth through five served under IDEA.

(d) Working directly with State educational agencies, local educational agencies, local agencies, and other stakeholders to develop and improve accountability systems to measure progress of children with disabilities, birth through five; and

(e) Developing and applying strategies for dissemination of information to specific audiences, including teachers, service providers, families, administrators, policymakers, and researchers. Such strategies must involve collaboration with other technical assistance providers, organizations, and researchers as described below.

The Center's collaboration and other leadership activities must include, but are not limited to:

(a) Maintaining communication and collaboration with other technical assistance providers (including the National Early Childhood Technical Assistance Center, the Regional Resource Centers, the Federal Resource Center, the National Center for Special Education Accountability Monitoring, the National Center on Educational Outcomes, Parent Training and Information Centers, and others) and organizations (including the National Association of State Directors of Special Education, the Council for Exceptional Children, the Infant and Toddler Coordinator's Association, Council of Chief State School Officers, parent and disability organizations, and others), as well as technical assistance projects funded under Office of Elementary and Secondary Education and Head Start concerning the development of outcome measures for young children with disabilities and accountability-related activities;

(b) Maintaining communication and collaboration with researchers (including researchers funded by the Institute of Education Sciences, the National Institute of Child Health and Human Development, the National Institute of Mental Health, and Administration for Children and Families) studying outcome measures for young children, accountability systems for programs serving young children, and related topics in order to promote the use of research findings and measures;

(c) Working directly with State educational agencies, local educational agencies, local agencies, technical assistance providers, parent organizations, parent trainers, other relevant organizations, and researchers to build consensus among stakeholders on what is important to measure, how the measurement should be conducted, the importance of using outcome indicators in early intervention and preschool special education, and the selection of child outcomes and indicators and family outcomes and indicators. The strategies for developing measures should include broad stakeholder input as to what they are, and how they should be considered;

(d) Convening conferences, at the request of OSEP, on topics related to the development of outcome measures and accountability systems for young children served under IDEA; and

(e) Collaborating and coordinating with Head Start and regular early childhood programs.

The Center must also:

(a) Establish, maintain, and meet at least annually with an advisory committee consisting of representatives of State and local educational and Part C lead agencies, individuals with disabilities, parents of children with disabilities, including parents of young children with disabilities, educators, service providers, professional organizations and advocacy groups, researchers, and other appropriate groups to review and advise on the Center's activities and plans. The committee membership must include individuals who are from communities representing rural, low-income, urban, and limited English proficient populations;

(b) Establish, maintain, and meet at least annually with a technical workgroup consisting of SEA, LEA, and Part C LA data specialists, researchers, and other appropriate individuals to advise on the Center's technical and research activities;

(c) Fund as project assistants at least three doctoral students per year who have concentrations in relevant topics such as early childhood special education, early intervention, assessment, educational policy, and administration;

(d) In addition to the two-day Project Directors Meeting listed in the General Requirements section of this notice, budget for two additional two-day trips annually to Washington, DC, to attend an additional Project Director meeting and to attend an OSEP Leadership Conference; and one trip a month to attend appropriate meetings convened by the Department of Education, and other Centers and organizations.

Fourth and Fifth Years of Project:

In deciding whether to continue this project for the fourth and fifth years, the Secretary will consider the requirements of 34 CFR 75.253(a), and in addition --

(a) The recommendation of a review team consisting of experts selected by the Secretary which review will be conducted during the last half of the project's second year in Washington, DC. Projects must budget for the travel associated with this one-day intensive review;

(b) The timeliness and effectiveness with which all requirements of the negotiated cooperative agreement have been or are being met by the Center;

(c) The degree to which the project's design and methodology demonstrates the potential for advancing significant new knowledge; and

(d) Evidence of the degree to which the project's activities have contributed to changed practice and improved outcomes for children with disabilities.

**PROJECT PERIOD:** Up to 60 months.

**MAXIMUM AWARD:** The maximum award amount is \$700,000. We will reject any application that proposes a budget exceeding the maximum award for a single budget period of 12 months.

**PAGE LIMITS:** Part III of an application submitted under this notice, the application narrative, is where you, the applicant, address the selection criteria that reviewers use in evaluating your application. You must limit Part III to the equivalent of no more than 70 pages, using the following standards:

- A "page" is 8.5" x 11" (on one side only) with one-inch margins (top, bottom, and sides).

- Use a font that is either 12-point or larger or no smaller than 10 pitch (characters per inch).

The page limit does not apply to Part I, the cover sheet; Part II, the budget section, including the narrative budget justification; Part IV, the assurances and certifications; or the one-page abstract, the resumes, the bibliography or references, or the letters of support. However, you must include all of the application narrative in Part III.

We will reject any application if --

- You apply these standards and exceed the page limit; or
- You apply other standards and exceed the equivalent of the page limit.

**ELIGIBLE APPLICANTS:** State and local educational agencies; institutions of higher education; other public agencies; private nonprofit organizations; outlying areas; freely associated States; and Indian tribes or tribal organizations.

**TECHNICAL ASSISTANCE AND DISSEMINATION**

**TO IMPROVE**

**SERVICES AND RESULTS**

**FOR CHILDREN WITH DISABILITIES**

# **NATIONAL DROPOUT PREVENTION CENTER FOR STUDENTS WITH DISABILITIES**

**(84.326Q)**

**DEADLINE: 08/27/03**

## **Background:**

The National Longitudinal Transition Study (NLTS) reported that 38 percent of students with disabilities who left school did so by dropping out, 30 percent enrolled in high school but did not finish, and 8 percent dropped out before entering high school. In 1996, Blackorby and Wagner found the dropout rate for students with disabilities to be approximately twice that of regular education students. Through technical assistance that will lead to improved results for children with disabilities, this priority is expected to have a significant impact on dropout prevention, the improvement of educational services, and interagency coordination.

## **Priority:**

The Secretary establishes an absolute priority for a cooperative agreement to support a National Dropout Prevention Center for Students with Disabilities to provide guidance and assistance to States, schools, families, agencies, and communities in designing, implementing, and evaluating effective comprehensive dropout prevention programs based on scientifically validated practices for students with disabilities. The Center will focus on two broad areas: (1) Prevention and Educational Programs, and (2) Reentry. The Center must address these areas through knowledge development activities and technical assistance and dissemination.

Knowledge development activities of the Center must include, but are not limited to:

(a) Conducting an annual survey of States to determine the current status of implementation of scientifically validated dropout prevention and educational and reentry programs and evaluating policies and practices that sustain or pose barriers to these interventions. Reentry program status must include information on service options such as the general education diploma (GED) participation, test accommodations on the GED, and adult education programs.

(b) Contracting with the What Works Clearinghouse to identify effective exemplary programs for wide replication.

(c) Organizing and synthesizing research, policy, and practice and advances in the two focus areas.

Technical assistance and dissemination activities of the Center must include, but are not be limited to:

- (a) Responding to written and telephone inquiries with research-validated information.
- (b) Collaborating with the National Center on Secondary Education and Transition and the Office of Special Education Programs (OSEP)-supported Promoting What Works Synthesis Center on the preparation and dissemination of information materials designed to increase awareness of and the use of research-validated practices by a variety of audiences (e.g., educators, policy makers, service providers, families, community agencies).
- (c) Developing partnerships and communications around dropout issues with leaders and key stakeholders in special education and regular education, State and school level administrators, and consumer and advocacy organizations such as the Parent Training and Information Centers (PTIs).
- (d) Establishing a coordinated network of researchers, practitioners, policy makers, families, service providers, community agencies, business groups who will serve as resources to States in designing and implementing effective programs.
- (e) Providing for information exchanges between researchers and practitioners who direct effective model programs and those seeking to design, implement, or replicate these models. Information must be exchanged through a variety of methods, including a national forum during the first year, and a national forum in the fifth year. These exchanges must be designed to expand the coordinated interagency network, create a dialog about systemic comprehensive services, develop awareness of the scientifically based practices in dropout prevention and education programming, and reentry. This forum must include exemplars and descriptions of model programs addressing the two focus areas.
- (f) Packaging a set of effective models that would permit others to replicate or implement effective practices that also include alternative approaches to delivery of effective services for students. The package must identify barriers and effective programming and suggest effective proven strategies for working with students with disabilities from low socio-economic backgrounds, speakers of English as a second language, those who become pregnant, and those who repeat a grade or more.
- (g) Developing and implementing strategic activities to provide technical assistance to States to assist them in the development of effective systems to address the dropout problem.
- (h) Coordinating with the OSEP contractor in working with States to improve data quality and analyze the approaches to assess the nature and extent of the problem.
- (i) Assisting States in developing model districts and school sites and help States replicate these models throughout the State.
- (j) Providing technical assistance to States focused on needs identified in the State survey and State's commitment to implementation.

(k) Submitting for approval a proposal describing the content and purpose of any new product, whether paper or electronic, to the document review board of OSEP's newly funded Dissemination Center, for which OSEP expects to fund this year.

(l) Providing OSEP-specified technical assistance to States. This effort may include participation in: (1) collaborative Web-based technical assistance activities, (2) coordination of and participation in State-to-State communities of practice, and (3) direct technical assistance to OSEP-specified States through partnerships between OSEP and selected States. Staff time and project resources dedicated to provide technical assistance to OSEP-specified States will be negotiated with OSEP as part of the cooperative agreement within 30 days of the project award (OSEP anticipates that technical assistance to OSEP-specified States could averaged approximately \$40,000 per year. Budgets should be developed with this in mind).

The Center must also:

(a) Meet with the OSEP project officer in the first two months of the project to review and refine the strategic plan of technical assistance and dissemination approaches;

(b) In addition to the two-day Project Director's Meeting listed in the general requirements section of this notice, budget for at least two annual planning meetings and eight two-day trips annually as requested by OSEP for Department briefings, Department sponsored conferences and other events.

(c) Maintain communication with the Federal project officer through monthly phone conversations and e-mail communication as needed. The Center must submit annual performance reports and provide additional written materials as needed for the project Federal officer to monitor the Center's work.

(d) Establish, maintain and meet at least biannually with an advisory committee consisting of representatives of State, local agencies, individuals with disabilities, persons from underrepresented populations, parent educators, professional organizations or advocacy groups, researchers, and other appropriate groups to review and advice the Center's activities and plans.

(e) Conduct evaluations of its specific activities and of the overall impact of its work. The Center must report its evaluation findings annually to the Federal project officer.

(f) Maintain a Web site with relevant information and documents in an accessible format with information available in both English and Spanish.

#### Fourth and Fifth Years of Project:

In deciding whether to continue this project for the fourth and fifth years, the Secretary will consider the requirements of 34 CFR 75.253(a), and in addition --

(a) The recommendation of a review team consisting of experts selected by the Secretary which review will be conducted during the last half of the project's second year in Washington, DC. Projects must budget for the travel associated with this one-day intensive review;

(b) The timeliness and effectiveness with which all requirements of the negotiated cooperative agreement have been or are being met by the Center; and

(c) Evidence of the degree to which the Center's activities have contributed to a changed practice and improved student outcomes.

**PROJECT PERIOD:** Up to 60 months.

**MAXIMUM AWARD:** The maximum award amount is \$700,000. We will reject any application that proposes a budget exceeding the maximum award for a single budget period of 12 months.

## **CENTER ON POSITIVE BEHAVIORAL INTERVENTIONS AND SUPPORTS**

**(84.326S)**

**DEADLINE: 08/27/03**

### **Background:**

In 1998 the Office of Special Education Programs (OSEP) funded the establishment of the Center on Positive Behavioral Interventions and Supports. This targeted technical assistance effort was a response to the newly reauthorized IDEA, which specified the need for the Individualized Education Program teams to consider, when appropriate, positive behavioral interventions and supports and other strategies to address problem behavior. Based on a strong history of application of these practices to improve the behavior of primarily individual students with mental retardation, recent research and demonstration has focused on expanding these practices to groups of students, classrooms, schools, districts, and States, focusing on building infrastructures of support that ultimately improve the school environment and the overall quality of life for children with challenging behaviors.

OSEP established this Center to give schools capacity-building information and technical assistance for identifying, adapting, and sustaining effective schoolwide disciplinary practices.

The Center had two primary foci: (1) Broad dissemination to schools, families, and communities about a technology of school-wide positive behavioral interventions and support and (2) Demonstrations at the levels of individual students, schools, districts, and States of the feasibility and effectiveness of schoolwide positive behavioral interventions and support. The follow-up investment in this area will continue the work of the past five years building on the emerging Positive Behavioral Support (PBS) Blueprint for Practice with an emphasis on building State and district level infrastructures of support to enable efficient and effective large scale implementation and sustainability of positive behavior support. For further information on the PBS Blueprint for Practice and the work of the past investment go to [www.PBIS.org](http://www.PBIS.org).

### **Priority:**

This priority will support a cooperative agreement for a technical assistance center focusing on dissemination of research-based schoolwide practices, and systems of positive behavioral support that foster positive learning and teaching environments and support the large-scale implementation and sustainability of those practices for school-aged children. Positive behavioral support has been defined as a broad range of systematic and individualized strategies for achieving important social and learning outcomes while preventing problem behavior. The Center must engage in a variety of leadership and technical assistance activities regarding positive behavioral supports and related topics such as: schoolwide discipline systems; classroom and nonclassroom management; individual student behavioral management; functional assessment-based behavioral support planning; social skills and self-management instruction;

safe schools; discipline and behavioral support policy; and family, school, and community partnerships.

The Center's knowledge development activities must include, but are not limited to, the following:

(a) Conducting an annual survey of States to determine the current status of establishing Statewide infrastructures to support systems of positive behavioral support and evaluate any policies and practices that sustain or pose barriers to these systems.

(b) Continuing documentation of the PBS practices by continued demonstrations across the continuum of primary, secondary, and tertiary interventions in elementary, middle, and high schools at the local level and system implementation at the district and State levels with particular emphasis on (1) function-based support at the tertiary level; (2) district and State level implementation; (3) students in high schools; and (4) coordination with other agencies such as mental health and juvenile justice.

(c) Establishing a mechanism for assessing and synthesizing the growing research base on positive behavioral support. This process should include the establishment of a network of researchers to assist the Center in the analysis and synthesis of the current and emerging research on PBS and other related topics.

(d) Maintaining a database suitable for collecting and analyzing information from schools, districts and States on behavior measures such as office discipline referrals and other appropriate data to enable schools to make data-based decisions and track progress regarding PBS. The Center must have training and materials available to facilitate implementation of the data collection system at local sites. The Center will also be responsible for analysis of the data and producing reports on trends and patterns related to PBS and other topics as requested by OSEP such as analysis of urban and rural schools and overrepresentation issues.

The Center's technical assistance activities must include, but are not limited to, the following:

(a) Maintaining a user-friendly Web site with relevant information and documents in an accessible format with information available in both English and Spanish.

(b) Working directly with States and school districts to (1) improve systemic implementation of positive behavioral supports and (2) establish and maintain an evaluation system based on a standard protocol such as the school evaluation tool (SET, see [www.pbis.org](http://www.pbis.org)) to measure progress of implementation. This work must also include a plan for the establishment of a cadre of national trainers and a system for communication and discussion among State implementation teams.

(c) Conducting national and regional meetings including large-scale dissemination conferences, focused trainer forums, topical symposia and other meetings on PBS and related

issues as requested by OSEP. At a minimum the Center must hold trainer forums every other year, a symposia in the off years and a national conference in year 5.

(d) Preparing and disseminating reports and documents on positive behavioral support and other related topics such as those listed above including publications in peer-referred journals.

(e) Developing and applying strategies for the dissemination of information to specific audiences including teachers, families, administrators, policymakers, and researchers. Such strategies must involve collaboration with other technical assistance providers, organizations and researchers as described above.

(f) Developing partnerships with relevant programs and organizations to assist with the scale up and sustainability efforts. Partners are not limited to but must include national teacher organizations, school administrators, parent organizations, and teacher trainers.

(g) Prior to developing any new product, whether paper or electronic, submitting for approval a proposal describing the content and purpose of any new product whether paper or electronic, to the document review board of OSEP's new Dissemination Center which OSEP expects to fund this year.

(h) Providing OSEP-specified technical assistance to States. This effort may include participation in: (1) collaborative Web-based technical assistance activities, (2) coordination of and participation in State-to-State communities of practice, and (3) direct technical assistance to OSEP-specified States through partnerships between OSEP and selected States. Staff time and project resources dedicated to provide technical assistance to OSEP-specified States will be negotiated with OSEP as part of the cooperative agreement within 30 days of the project award (OSEP anticipates that technical assistance to OSEP-specified States could average approximately \$40,000 per year. Budgets should be developed with this in mind).

The Center must also:

(a) Meet with the OSEP project officer and other appropriate staff in D.C. within the first two months of the project to clarify project activities and develop a strategic plan for technical assistance and dissemination.

(b) Maintain communication with the Federal project officer through monthly phone conversations and e-mail communication as needed. The Center must submit annual performance reports and provide additional written materials as needed for the Federal project officer to monitor the Center's work.

(c) Establish, maintain and meet at least annually with an advisory committee consisting of representatives of State or local agencies, individuals with disabilities, parent educators, professional organizations or advocacy groups, researchers and other appropriate groups to review and advise the Center's activities and plans.

(d) Maintain communication and collaboration with other OSERS-funded projects such as the OSEP Regional Resource Centers, the IDEA Partnership Project, the Parent Training and Information Centers and other parent projects, the National Institute on Disability and Rehabilitation Research's Research Training Center on PBS, other OSEP PBS projects, dissemination and synthesis projects, and other projects as appropriate.

(e) Fund, as project assistants, three doctoral students per year who have concentrations in relevant topics such as special education or behavioral disorders.

(f) Conduct evaluations of its specific activities and of the overall impact of its work. The Center must report its evaluation findings annually to the Federal project officer.

(g) In addition to the two-day Project Meeting listed in the general requirements section of this notice, budget for an additional two-day project meeting to attend the Research Project Meeting and at least two annual planning meetings; and eight two-day trips annually as requested by OSEP to attend meetings such as Department briefings, Department-sponsored conferences; and other OSEP-requested activities.

**TECHNOLOGY AND MEDIA SERVICES**

**FOR INDIVIDUALS WITH DISABILITIES**

# **FAMILY CENTER ON TECHNOLOGY AND DISABILITY**

**(CFDA 84.327F)**

**DEADLINE: 08/27/03**

## **ABSOLUTE PRIORITY:**

### **Background:**

Parents and families play a critical role in obtaining the benefits of assistive technology for students with disabilities. Parents must often advocate for making assistive technology available to their children and can help in selecting, planning, and implementing assistive technology. Family support is often an important determinant of the success or failure of assistive technology.

To fulfill these functions, parents and families must have up-to-date information about various forms of assistive technology and the processes for obtaining assistive technology devices and services. Parents and families may need to learn skills in using technology and helping students with disabilities in its use.

There is a national infrastructure of programs and organizations that can potentially address the assistive technology-related needs of parents and families. These include the Parent Training and Information Centers and the Community Parent Resource Centers funded by the Office of Special Education Programs (OSEP), disability and advocacy groups, professional associations, community groups, etc. However, these programs and organizations are often not adequately prepared to provide information and services related to assistive technology.

Since 1998, OSEP has funded a center called the Family Center on Technology and Disability (FCTD) not to work directly with parents but instead to work with other relevant programs and organizations to improve the availability and quality of technology-related information and support to families of children with disabilities. Information about FCTD is available at the Center's Web site at: <http://www.fctd.info>. The contract supporting FCTD is currently scheduled to end in September 2003.

### **Priority:**

The purpose of this priority is to support a cooperative agreement for a Center to improve the availability and quality of technology-related information and support to families of children with disabilities. The Center's activities must include, but are not limited to:

(a) Developing a strategic plan. The Center must review existing data and literature and develop a strategic plan for increasing the capacity of projects and organizations such as the Parent Training and Information Centers and the Community Parent Resource Centers funded by OSEP, disability and advocacy groups, professional associations, and community groups to meet the assistive technology needs of parents and families within the parameters of this priority. The purpose of this strategic plan is to integrate the Center's various activities, as described below,

into a cohesive process for improving the capacity of projects and organizations to meet the assistive technology needs of parents and families.

(b) Maintaining and expanding a broad-based network. The Center must retrieve all available information on network members from the current FCTD contractor and establish a database and communication system for maintaining the network. The Center must also establish and carry out a plan for identifying and recruiting as network members other relevant programs and organizations that can help to address the technology-related needs of parents and families of children with disabilities.

(c) Providing information and support to the network. The Center must develop and carry out plans for providing network members with information and resources that will enable them to better meet the assistive technology needs of the parents and families with whom they work. The Center must develop and carry out plans for fostering communication and collaboration with and among the programs and organizations in the network to better meet the assistive technology needs of the parents and families. The Center must provide for information exchange through a newsletter.

(d) Developing strategic responses to direct inquiries from parents and families. It is likely that the Center will receive inquiries about assistive technology directly from parents and families of children with disabilities, even though it is not intended to provide this type of direct assistance. The Center must develop a plan for referring these contacts to the appropriate members of the network, and for using them as an opportunity for developing the capacity of projects and organizations to respond to the needs expressed.

(e) Collecting, revising, developing, and disseminating materials. The Center must retrieve the resource review database and materials collected by the current FCTD contractor and establish a searchable online database to continue making these reviews available to the public. The Center must continue to update and expand the resource review database by removing outdated materials and adding new materials. The Center must, to the maximum extent possible, include high quality resources that are available free of charge and downloadable from the Internet. The Center must focus on materials that are useful in meeting the assistive technology needs of parents and families, and must avoid, to the maximum extent possible, duplicating the functions of other online resources such as [assistivetech.net](http://assistivetech.net) and [abledata.com](http://abledata.com).

(f) Participating in meetings, conferences, and events. The Center must participate in meetings, conferences, and other events to improve the capacity of other projects and organizations to meet assistive technology needs of parents and families. The Center's participation may include, but is not limited to, delivering presentations, exhibiting and demonstrating materials, conducting discussions, and participating in work groups.

(g) Maintaining an accessible Web site. The Center must maintain an accessible site on the Web with information about the Center, the searchable resource review database, topical online discussions, links to other relevant sites, newsletters, and other resources.

(h) Conducting evaluations. The Center must conduct evaluations of its activities to determine if it is meeting needs effectively and efficiently. The Center must report its evaluation findings annually to the Federal project officer.

(i) Maintaining communication with the Federal project officer. The Center must conduct monthly phone conversations with the Federal project officer and must maintain e-mail communication as needed. The Center must submit annual performance reports and provide additional written materials as needed for the Federal project officer to monitor the Center's work.

Fourth and Fifth Years of Project:

In deciding whether to continue this project for the fourth and fifth years, the Secretary will consider the requirements of 34 CFR 75.253(a), and in addition --

(a) The recommendation of a review team consisting of experts selected by the Secretary which review will be conducted during the last half of the project's second year in Washington, DC. Projects must budget for the travel associated with this one-day intensive review;

(b) The timeliness and effectiveness with which all requirements of the negotiated cooperative agreement have been or are being met by the Center; and

(c) Evidence of the degree to which the Center's activities have contributed to a changed practice and improved student outcomes.

**PROJECT PERIOD:** Up to 60 months.

**MAXIMUM AWARD:** The maximum award amount is \$600,000. We will reject any application that proposes a budget exceeding the maximum award for a single budget period of 12 months.

**PAGE LIMITS:** Part III of an application submitted under this notice, the application narrative, is where you, the applicant, address the selection criteria that reviewers use in evaluating your application. You must limit Part III to the equivalent of no more than 70 pages, using the following standards:

- A "page" is 8.5" x 11" (on one side only) with one-inch margins (top, bottom, and sides).
- Double-space (no more than three lines per vertical inch) all text in the application narrative, including titles, headings, footnotes, quotations, and captions, as well as all text in charts, tables, figures, and graphs.
- Use a font that is either 12-point or larger or no smaller than 10 pitch (characters per inch).  
The page limit does not apply to Part I, the cover sheet; Part II, the budget section, including the narrative budget justification; Part IV, the assurances and certifications; or the one-page abstract, the resumes, the bibliography or references, or the letters of support. However, you must include all of the application narrative in Part III.

We will reject any application if --

- You apply these standards and exceed the page limit; or
- You apply other standards and exceed the equivalent of the page limit.

## **TELEVISION ACCESS**

**(CFDA 84.327J)**

**DEADLINE: 08/27/03**

### **ABSOLUTE PRIORITY:**

This priority supports cooperative agreements to provide (1) captioning of local news and public information television programs, and (2) captioning, description, or captioning and description of children's television programs. Only programs not previously captioned are eligible for funds for captioning under this activity. In awarding funds the Secretary will consider the extent to which the applicant or a third party shares in the cost of the project. Program hours or the costs of captioning associated with those programs that are funded by promotional billboards will not be considered as an in-kind cost, or a private sector match, for Federal funds.

A project must do the following:

- (a) Include criteria for selecting programs that take into account the preference of educators, students, and parents; the diversity of the type of programming available; and the contribution of the programming to the general educational experience of students who have disabilities in the areas of vision or hearing.
- (b) Identify and support a consumer advisory group, including parents and educators, that would meet at least annually.
- (c) Use the expertise of this consumer advisory group to certify that each program captioned or described with project funds is educational, news, or informational programming.
- (d) Identify the extent to which the programming is widely available.
- (e) Identify the total number of program hours the project will make accessible and the cost per hour for description or captioning or both.
- (f) For each program to be described or captioned or both, identify the source of any private or other public support, and the projected dollar amount of that support, if any.
- (g) Demonstrate the willingness of program providers or owners of programs to permit and facilitate the description or captioning or both of their programs.
- (h) Provide assurances from program providers or owners of programs stating that programs made accessible under this project will air, and will continue to air, with descriptions or captions or both.

(i) Implement procedures for monitoring the extent to which full accessibility is provided, and use this information to make refinements in project operations.

(j) Identify the anticipated shelf-life and range of distribution of the captioned or described programs that is possible without further costs to the project beyond the initial captioning costs.

An application may address only one type of the following programs --

(1) Local News and Public Information Programs. The Secretary intends to fund projects that will increase the capacity of the television captioning industry to respond to demands for accurate real-time captioning. To be funded a project must caption local news and public information programs using the real-time stenographic method preferred by consumers who are deaf or hard of hearing.

(2) Accessible Children's Television Programs. The Secretary intends to fund projects that will describe and caption widely available educational, news, and informational programs for children shown on broadcast, satellite, or cable systems.

Competitive Preference Priority:

Within the Local News and Public Information Programs segment of this absolute priority, we award under 34 CFR 75.105(c)(2)(i) an additional 20 points to an application from an applicant that --

(a) During fiscal year 2002, was not a grantee or a subcontractor of a grantee under the Technology and Media Services for Individuals with Disabilities program; and

(b) Won't use a subcontractor who was a grantee or a subcontractor of a grantee under this program during fiscal year 2002.

Thus, an applicant meeting this competitive preference could receive a maximum possible score of 120 points.

FISCAL INFORMATION:

Under this priority, we intend to make one or more awards in each of the two areas of activity identified.

**PROJECT PERIOD:** Up to 36 months.

**MAXIMUM AWARD:** The maximum award amount is \$110,000 for the Local News and Public Information Programs focus of this competition, and \$200,000 for the Accessible Children's Television Programs focus of this competition. We will reject any application that proposes a budget exceeding the maximum award for a single budget period of 12 months.

**PAGE LIMITS:** Part III of an application submitted under this notice, the application narrative, is where you, the applicant, address the selection criteria that reviewers use in evaluating your application. You must limit Part III to the equivalent of no more than 50 pages, using the following standards:

- A "page" is 8.5" x 11" (on one side only) with one-inch margins (top, bottom, and sides).
- Double-space (no more than three lines per vertical inch) all text in the application narrative, including titles, headings, footnotes, quotations, and captions, as well as all text in charts, tables, figures, and graphs.
- Use a font that is either 12-point or larger or no smaller than 10 pitch (characters per inch).  
The page limit does not apply to Part I, the cover sheet; Part II, the budget section, including the narrative budget justification; Part IV, the assurances and certifications; or the one-page abstract, the resumes, the bibliography or references, or the letters of support. However, you must include all of the application narrative in Part III.

We will reject any application if --

- You apply these standards and exceed the page limit; or
- You apply other standards and exceed the equivalent of the page limit.

**ELIGIBLE APPLICANTS:** State and local educational agencies, institutions of higher education, other public agencies, private nonprofit organizations, outlying areas, freely associated States, Indian tribes or tribal organizations, and for-profit organizations.

## **CENTER ON TECHNOLOGY AND STANDARDS-BASED REFORM FOR STUDENTS WITH DISABILITIES**

**(CFDA 84.327R)**

**DEADLINE: 08/27/03**

### **ABSOLUTE PRIORITY:**

Standards-based reform is premised on a “theory of action” in which standards, assessments, and accountability lead to improved curriculum and clear expectations for students and schools, which in turn lead to professional development and improved teaching, which ultimately lead to higher levels of student learning (Elmore and Rothman, Eds., 1999, available at <http://www.nap.edu/catalog/9609.html>). This theory suggests that for standards-based reform to benefit students with disabilities, certain conditions must be met. Among these are the following: (1) Assessments must be accessible and valid for the widest possible range of students with disabilities (with valid and reliable alternate assessments available for students with disabilities who cannot participate in general assessments); (2) Information on assessment results must be available to all appropriate parties in a timely fashion and must be applicable to instruction as well as to accountability; (3) Coherent standards-based instruction must be delivered, and student progress toward meeting standards must be monitored; (4) Principles of universal design must be applied to standards, assessments, curriculum, and instruction; and (5) Connections must be maintained between the components of the system, including standards, assessments, reporting, instructional planning, professional development, and instruction.

### **Priority:**

This priority supports a cooperative agreement for a center to conduct research, synthesize research, collect information, disseminate information, and provide assistance to States (in collaboration with other assistance providers) on the use of technology to maximize the benefits of standards-based reform for students with disabilities. Technologies may include, but are not limited to, technology-based assessments, computerized curriculum-based measurement, technology-based instruction, and technology-based systems for managing and analyzing information. The Center’s work must address a range of the conditions necessary for standards-based reform to benefit students with disabilities as presented in the Background section of this priority, as well as other important conditions that become apparent during the course of the project.

The Center’s activities must include, but are not limited to:

(a) Conducting research syntheses and needs assessments. The Center must conduct needs assessments through such means as stakeholder focus groups that include parents, individuals with disabilities, and others; analyze current State efforts and currently available products and approaches; and synthesize research relevant to the use of technology to increase the benefits of standards-based reform for students with disabilities. The products of these

activities must be disseminated by means of the Web site discussed in paragraph (f) of this section.

(b) Developing and implementing a strategic plan. Based on its needs assessments, analyses of State efforts, and research syntheses, the Center must develop a strategic plan that integrates its activities in research, research synthesis, information collection, dissemination, and assistance to States. The goal of the strategic plan is to ensure that the Center's efforts are coherent, targeted at high-priority needs, and likely to have widespread positive effects. The Center must submit the strategic plan for approval by the Office of Special Education Programs (OSEP), and must revise the plan as instructed.

(c) Developing and evaluating approaches for using technology in standards-based reform. In collaboration with State and local educational agencies and other stakeholders, the Center must develop, implement, and evaluate approaches for using technology to increase the benefits of standards-based reform for students with disabilities. These approaches must be implemented in the context of ongoing State or local efforts related to standards-based reform. Specific approaches may address specific topics, but overall the Center's activities must address a range of the conditions presented in the first paragraph of the Background section above. Outcome measures must include the performance of students with disabilities on standards-based assessments.

(d) Providing collaborative assistance to States. In collaboration with other projects and organizations, the Center must provide assistance to States on the use of technology to maximize the benefits of standards-based reform for students with disabilities. This assistance must be designed to help as many States as possible, and may be provided in the context of national or regional conferences, professional meetings, internet-based assistance, or similar approaches.

(e) Coordinating with relevant Federal projects. The Center must share information and coordinate plans with other relevant federally funded projects. These projects may include, but are not limited to, the National Center on Educational Outcomes (NCEO), the National Center on Technology Innovation (NCTI), the National Center for Research on Evaluation, Standards, and Student Testing (CRESST), National Center on Accessing the General Curriculum (NCAC), and the Technology-Based Assessment (TBA) project sponsored by the National Center for Education Statistics.

(f) Maintaining a Web site. The Center must maintain a Web site for the purpose of disseminating information products and maintaining communication with and among interested parties.

(g) Conducting evaluations. The Center must conduct evaluations of its specific activities and of the overall impact of its work. The Center must report its evaluation findings annually to the Federal project officer.

(h) Convening an advisory committee. The Center must: (1) form an advisory committee that represents researchers, policymakers, State and local educational personnel, developers and vendors, individuals with disabilities, and other relevant perspectives; and (2) convene the advisory committee annually in the Washington DC area to review the Center's work and suggest future research and dissemination activities.

(i) Maintaining communication with the Federal project officer. The Center must conduct monthly phone conversations with the Federal project officer and must maintain e-mail communication as needed. The Center must submit annual performance reports and provide additional written materials as needed for the Federal project officer to monitor the Center's work.

Fourth and Fifth Years of Project:

In deciding whether to continue this project for the fourth and fifth years, the Secretary will consider the requirements of 34 CFR 75.253(a) for continuation awards.

The Secretary will also consider the following:

(a) The recommendation of a review team consisting of experts selected by the Secretary. The team will conduct its review in Washington, DC during the last half of the project's second year. A project must budget for the travel associated with this one-day intensive review;

(b) The timeliness and effectiveness with which all requirements of the negotiated cooperative agreement have been or are being met by the project; and

(c) The degree to which the project is making a positive contribution -- and its strategies are demonstrating the potential for disseminating significant knowledge to State and local constituencies -- to using technology to maximize the benefits of standards-based reform for students with disabilities.

**PROJECT PERIOD:** Up to 60 months.

**MAXIMUM AWARD:** The maximum award amount is \$600,000. We will reject any application that proposes a budget exceeding the maximum award for a single budget period of 12 months.

**PAGE LIMITS:** Part III of an application submitted under this notice, the application narrative, is where you, the applicant, address the selection criteria that reviewers use in evaluating your application. You must limit Part III to the equivalent of no more than 70 pages, using the following standards:

- A "page" is 8.5" x 11" (on one side only) with one-inch margins (top, bottom, and sides).
- Double-space (no more than three lines per vertical inch) all text in the application narrative, including titles, headings, footnotes, quotations, and captions, as well as all text in charts, tables, figures, and graphs.
- Use a font that is either 12-point or larger or no smaller than 10 pitch (characters per inch).

The page limit does not apply to Part I, the cover sheet; Part II, the budget section, including the narrative budget justification; Part IV, the assurances and certifications; or the one-page abstract, the resumes, the bibliography or references, or the letters of support. However, you must include all of the application narrative in Part III.

We will reject any application if --

- You apply these standards and exceed the page limit; or
- You apply other standards and exceed the equivalent of the page limit.

**ELIGIBLE APPLICANTS:** State and local educational agencies, institutions of higher education, other public agencies, private nonprofit organizations, outlying areas, freely associated States, Indian tribes or tribal organizations, and for-profit organizations.

**SELECTION CRITERIA AND FORMAT FOR THE FAMILY CENTER ON TECHNOLOGY AND DISABILITY (CFDA 84.327F); TELEVISION ACCESS (CFDA 84.327J); AND THE CENTER ON TECHNOLOGY AND STANDARDS-BASED REFORM FOR STUDENTS WITH DISABILITIES (CFDA 84.327R) COMPETITIONS**

Part III of the application form requires a narrative that addresses the selection criteria that will be used by reviewers in evaluating individual proposals. Applications are more likely to receive favorable reviews by panels when they are organized according to the format suggested below. This format was published in the FEDERAL REGISTER as an appendix to the program regulations, and it addresses all the selection criteria used to evaluate applications required by regulations. If you prefer to use a different format, you may wish to cross-reference the sections of your application to the selection criteria to be sure that reviewers are able to find all relevant information.

The selection criteria that will be used to evaluate applications submitted to the competitions listed above are the selection criteria for new grants required by the EDGAR general selection criteria menu. The maximum score for all of the criteria is 100 points.

A one-page **abstract** should precede the application narrative. The application narrative should include the following sections in this order:

**(a) Significance (20 points)**

(1) The Secretary considers the significance of the proposed project.

(2) In determining the significance of the proposed project, the Secretary considers the following factors:

(iii) The extent to which the proposed project encourages parental involvement; and

(iv) The extent to which the proposed project encourages consumer involvement.

**(c) Quality of project personnel (20 points)**

(1) The Secretary considers the quality of the personnel who will carry out the proposed project.

(2) In determining the quality of project personnel, the Secretary considers the extent to which the applicant encourages applications for employment from persons who are members of groups that have traditionally been underrepresented based on race, color, national origin, gender, age, or disability.

(3) In addition, the Secretary considers the following factors:

(i) The qualifications, including relevant training and experience, of key project personnel; and

(ii) The qualifications, including relevant training and experience, of project consultants or subcontractors.

**(d) Quality of the management plan (15 points)**

(1) The Secretary considers the quality of the management plan for the proposed project.

(ii) The relevance and demonstrated commitment of each partner in the proposed project to the implementation and success of the project;

(iii) The extent to which the budget is adequate to support the proposed project; and

(iv) The extent to which the costs are reasonable in relation to the objectives, design, and potential significance of the proposed project.

GENERAL INFORMATION  
ON COMPLETING  
AN APPLICATION

## GENERAL INFORMATION ON COMPLETING AN APPLICATION

Potential applicants frequently direct questions to officials of the Department regarding application notices and programmatic and administrative regulations governing various direct grant programs. To assist potential applicants, the Office of Special Education Programs staff have assembled the following most commonly raised issues. In general, this information applies to the grant competitions covered by this application package.

- EXTENSION OF DEADLINES

Waivers for individual applications are not granted, regardless of the circumstances. Under very extraordinary circumstances a closing date may be changed. Such changes are announced in the Federal Register.

- COPIES OF THE APPLICATION

Current Government-wide policy is that only an original and two copies need to be submitted. OSEP would appreciate receiving three additional copies to facilitate the peer review process. This would mean an original and two copies need to be submitted and we would appreciate your voluntarily submitting an additional three copies (six applications in all). Copies of the application may be bound, but it is not necessary or required. If bound, one copy should be left unbound to facilitate electronic scanning and any necessary reproduction. Applicants should not use colored paper, foldouts, photographs, or other materials that are hard to duplicate.

- MAKING APPLICATIONS MORE ACCESSIBLE TO REVIEWERS WHO ARE BLIND OR HAVE LOW VISION

The Department will accept one copy of the application in an accessible format (i.e., IBM PC compatible WordPerfect or ASCII code diskette) along with the original and two print copies of the application. The accessible format copy can be used with available software to convert the text of the application into Braille, or with text to voice applications. If there are any differences in the print original provided on the disk and in print, the print original is assumed to be the correct version. Please note that it is not a requirement that one copy of the application be in an accessible format.

- MISSED DEADLINES AND SUBMISSION UNDER OTHER COMPETITIONS

Should an application miss the deadline for a particular competition, it may be submitted to another competition. However, if an application is properly prepared to meet the specifications of one competition, it is extremely unlikely that it would be favorably evaluated under a different competition.

- SUBMISSION TO MORE THAN ONE PROGRAM

Applications may be submitted to more than one Federal program if you are unsure of the most appropriate program. Each application should be prepared following the instructions for that particular program as closely as possible (which may require some reformulation). It is very helpful if each program is notified that an identical or similar application is being submitted to another program.

- **HELP PREPARING APPLICATIONS**

We are happy to provide general program information. Clearly it would not be appropriate for staff to participate in the actual writing of an application, but we can respond to specific questions about our application requirements and evaluation criteria, or about the announced priorities. Applicants should understand that such previous contact is not required, nor does it guarantee the success of an application.

- **NOTIFICATION OF FUNDING**

The time required to complete the evaluation of applications is variable. Once applications have been received staff must determine the areas of expertise needed to appropriately evaluate the applications, identify and contact potential reviewers, convene peer review panels, and summarize and review the recommendations of the review panels. You can expect to receive notification within 3 to 6 months of the application closing date, depending on the number of applications received and the number of competitions with closing dates at about the same time. The requested start date should therefore be a minimum of 6 months after the application closing date.

- **POSSIBILITY OF LEARNING THE OUTCOME OF REVIEW PANELS PRIOR TO OFFICIAL NOTIFICATION**

Every year we are called by a number of applicants who have legitimate reasons for needing to know the outcome of the review prior to official notification. Some applicants need to make job decisions, some need to notify a local school district, etc. Regardless of the reason, we cannot share information about the review with anyone until the Assistant Secretary has approved a slate of projects recommended for funding. You will be notified as quickly as possible either by telephone (if your application is recommended for funding), or through a letter (if your application is not successful).

- **FORMAT FOR APPLICATIONS**

The application narrative (Part III of the application form) should be organized to follow the exact sequence of the components in the selection criteria used to evaluate applications. (The selection criteria for the competitions covered by this packet are listed following the specific competition information in section “C” of this packet.) A table of contents, list of priority requirements, and a one-page abstract summarizing the objectives, activities, project participants, and expected outcomes of the proposed project should precede the application narrative. If you prefer to use a different format, you may wish to cross-reference the sections of your application to the selection criteria to be sure that reviewers are able to find all relevant information.

To aid in screening and reviewing the application, applicants should list in Part II and prior to the abstract, all general, special, and other requirements for the priority and corresponding page number (s) where requirements are addressed within the application. Page limits do not apply to this list. (All requirements are found in each priority description included in this application package.) The format included below is an example of how you might provide this information in your application.

Page #	Requirements
_____	(a) Projects funded under this notice must make positive efforts to employ and advance in employment qualified individuals with disabilities in project activities. (See Section 606 of IDEA)
_____	(b) Applicants and grant recipients funded under this notice must involve individuals with disabilities or parents of individuals with disabilities in planning, implementing, and evaluating the projects. (See Section 661(f)(1)(A) of IDEA)
_____	(c) Applicant must describe steps to ensure equitable access to, and participation in, its program for students, teachers, and other program beneficiaries with special needs. (See Section 427, GEPA)
_____	(d) Projects funded under these priorities must budget for a two-day Project's Directors' meeting in Washington, D.C. during each year of the project.

- **BEST WAY TO PREPARE PROGRAM ABSTRACT**

The program abstract should be one page in length. It would be helpful if it included; the title of the program, the name of the Absolute Priority, and the CFDA Number (e.g., 84.327F, etc.).

- **PAGE LIMITS**

Please note that all applications submitted under the competition in this application package must adhere to the Part III - Application Narrative page limit requirements that are specified under each priority/competition description. Your application should provide enough information to allow the review panel to evaluate the importance and impact of the project as well as to make knowledgeable judgments about the methods you propose to use (design, subjects, sampling procedures, measures, instruments, data analysis strategies, etc.). It is often helpful to have:

- (1) Staff Vitae--They should include each person's title and role in the proposed project and contain only information that is relevant to this proposed project's activities and/or publications. Vitae for consultants and Advisory Council members should be similarly brief.
- (2) Instruments--except in the case of generally available and well known instruments.
- (3) Agreements--when the participation of an agency other than the applicant is critical to the project. This is particularly critical when an intervention will be implemented within an agency, or when subjects will be drawn from particular agencies. Letters of cooperation should be specific, indicating agreement to implement a particular intervention or to provide access to a particular group of students.

The items listed above are not included under page limits.

- **MAKING SURE APPLICATION IS ASSIGNED TO THE CORRECT COMPETITION**

Applicants should clearly indicate in Item 3 on the application (ED Form 424) the CFDA number of the program priority (e.g., 84.326Q, etc.) representing the competition in which the application should be considered. If this information is not provided, your application may inadvertently be assigned and reviewed under a different competition from the one you intended.

- RETURN OF NON-FUNDED APPLICATIONS

We do not return original copies of applications. Thus, applicants should retain at least one copy of the application. Copies of reviewer comments will be mailed to all applicants.

- PROPOSED STAFF AVAILABILITY TO PROJECT

For each staff person named in the application, please provide documentation of all internal and external time commitments. In instances where a staff person is committed on a federally supported project, please provide the project name, Federal office, program title, the project Federal award number, and the amount of committed time by each project year. This information (e.g., Staff: Jane Doe; Project Name: Succeeding in the General Curriculum; Federal office: Office of Special Education Programs; Program title: Field Initiated Research; Award number: H324C980624; Time commitments: Year 1—30%; Year 2—25% and Year 3—40%) can be provided as an Appendix to the application.

In general, we will not reduce time commitments on currently funded grants from the time proposed in the original application. Therefore, we will not consider for funding any application where key staff are bid above a time commitment level that staff have available to bid. Further, the time commitments stated in newly submitted applications will not be negotiated down to permit the applicant to receive a new grant award.

- USE OF PERSON LOADING CHARTS

It is important for applicants to include proposed time commitments for all project personnel. Also, program officials and applicants often find person loading charts useful formats for showing project personnel and their time commitments to individual activities. A person loading chart is a tabular representation of major evaluation activities by number of days spent by each key person involved in each activity, as shown in the following example.

Table #  
Person Loading Chart - Time in Day(s) by Person\*

Activity	Time in Day(s) by Person			
	Person A	Person B	Person C	Person D
Library Research	15	20	0	0
Hire Staff	0	0	0	5
Prepare Materials	5	25	0	0
Train Raters	0	2	0	0
Data Collection	60	60	0	0
Data Analysis	0	0	25	5
Dissemination (manuscripts, etc.)	0	1	0	10

\*Note: All figures represent FTE for the academic year.

- DELIVERING/SENDING APPLICATIONS TO THE COMPETITION MANAGER

Applications can be mailed or hand delivered, or submitted electronically but in either case must go to the Application Control Center at the address listed in the Application Transmittal Instructions. Delivering or sending the application to the competition manager in the program office may prevent it from being logged in on time to the appropriate competition and may result in the application not being reviewed.

- ALLOWED TRAVEL UNDER THESE PROJECTS

Travel is allowed if the travel specifically relates to the expressed goals of the project. Travel by students to further their education under the project's goals is also allowed. Travel to conferences is the travel item that is most likely to be questioned during negotiations. Such travel is sometimes allowed when it is for purposes of dissemination, when there will be results to be disseminated, and when it is clear that a conference presentation or workshop is an effective way of reaching a particular target group.

- FUNDING OF APPROVED APPLICATIONS

It is often the case that the number of applications recommended for approval by the reviewers exceeds the dollars available for funding projects under a particular competition. When the panel reviews are completed for a particular competition, the individual reviewer scores and applications are ranked. The higher ranked, approved applications are funded first, and there are often lower ranked, approved applications that do not receive funding. Sometimes, one or two applications that are approved and fall next in rank order (after those projects selected for funding) are placed on hold. If dollars become available as a result of negotiations, or if a higher ranked applicant declines the award, the projects on hold may receive funding. If you receive a

letter stating that you will not receive funding, then your project has neither been selected for funding nor placed on hold.

- **INDIRECT COST RATE**

There is no maximum indirect cost for the competitions in this application package. An organization's current effective indirect cost rate is the rate that should be reflected in your proposed budget.

- **ISSUES RAISED DURING DISCUSSIONS PRIOR TO AWARD**

If your application is recommended for funding, discussions may be held prior to award to clarify technical or budget issues. These are issues that have been identified during panel and staff review. Generally, technical issues are minor issues that require clarification. Alternative approaches may be presented for your consideration, or you may be asked to provide additional information or rationale for something you have proposed to do. Sometimes, concerns are stated as "conditions". These are concerns that have been identified as so critical that the award cannot be made unless those conditions are met. Questions are also raised about the proposed budget during the discussion phase. Generally, budget issues are raised because there is inadequate justification or explanation of the particular budget item, or because the budget item does not seem critical to the successful completion of the project. A Federal project officer will present the issues to you and ask you to respond. If you do not understand the question, you should ask for clarification. In responding to discussion items you should provide any additional information or clarification requested. You may feel that an issue was addressed in the application. It may not, however, have been explained in enough detail to make it understood by reviewers, and more information should be provided. If you are asked to make changes that you feel could seriously affect the project's success, you may provide reasons for not making the changes, or provide alternative suggestions. Similarly, if proposed budget reductions will, in your opinion, seriously affect the proposed activities, you may want to explain why and provide additional justification for the proposed expenses. Your changes, explanations, and alternative suggestions will be carefully evaluated by staff. In some instances, an applicant may again be contacted for additional information. An award cannot be made until all issues have been resolved and conditions met.

- **TREATING A PRIORITY AS TWO SEPARATE COMPETITIONS.** In the past, there have been problems in finding peer reviewers without conflicts of interest where applications are made by many entities throughout the country. The Standing Panel requirements under the IDEA Amendments of 1997 have also placed additional constraints on the availability of reviewers. Therefore, The Department has determined that, for some discretionary priorities, applications may be ranked and selected for funding in two or more groups, which will ensure the availability of a much larger group of reviewers without conflicts of interest. This procedure will increase the quality, independence and fairness of the review process and will permit panel members to review applications under discretionary priorities to which they have also submitted applications.

- **SUCCESSFUL APPLICATIONS AND ESTIMATED/PROJECTED BUDGET AMOUNTS IN SUBSEQUENT YEARS**

There is a maximum award amount specified for the priority/competitions included in this package. The Department rejects and does not consider an application that proposes a budget exceeding the maximum amount for any single budget period of 12 months for the priorities included in this package. Please refer to the priority description to determine the maximum award for any one particular competition. Since the yearly budgets for multi-year projects will be negotiated at the time of the initial award, applicants must include detailed budgets for each year of their proposed project. Generally, out-year funding levels most likely will not exceed 1st year budgets. However, budget modifications during the negotiation process, the findings from the previous year, or needed changes in the study design can affect your budget requirements in subsequent years, but in no case will out-year budgets exceed the maximum award amount.

- **REQUIREMENT TO REPORT THE RESULTS OF GRANT ACTIVITIES**

The Department shall, where appropriate, require recipients of all grants, contracts and cooperative agreements under Part D of the Individuals with Disabilities Education Act to prepare reports describing their procedures, findings, and other relevant information. The Department shall require their delivery to the Department of Education and to the ERIC Clearinghouse on Disabilities and Gifted Education, and other networks as The Department may determine appropriate. (20 U.S.C. 1461)

- **DIFFERENCE BETWEEN A COOPERATIVE AGREEMENT AND A GRANT**

A cooperative agreement is similar to a grant in that its principal purpose is to accomplish a public purpose of support or stimulation as authorized by a Federal statute. It differs from a grant in the sense that in a cooperative agreement substantial involvement is anticipated between the executive agency (in this case the Department of Education) and the recipient during the performance of the contemplated activity.

- **DIFFERENCE BETWEEN AN ABSOLUTE PRIORITY, AN INVITATIONAL PRIORITY, AND A COMPETITIVE PRIORITY**

An absolute priority is a priority that an applicant must address in order to receive an award. If an applicant does not address an absolute priority, their application will be returned as being non-responsive to the priority.

An invitational priority is a priority that reflects a particular interest of the Department, and an applicant is encouraged to address the invitational priority along with the required absolute priority. However, an applicant choosing to address an invitational priority, will not receive any competitive preference over other applications.

A competitive priority is like an invitational priority in that it reflects a particular interest of the Department, and an applicant is encouraged to address the competitive priority along with the required absolute priority. A competitive priority may be handled in one of two ways: (1) an

application may be awarded additional points depending on how effectively it addresses the competitive priority; or (2) an application that meets a competitive priority may be selected over an application of comparable merit that does not address the competitive priority. The type of competitive priority for a particular competition is always included in the FEDERAL REGISTER announcement.

APPLICATION TRANSMITTAL INSTRUCTIONS  
AND  
REQUIREMENTS FOR INTERGOVERNMENTAL REVIEW

## INSTRUCTIONS FOR TRANSMITTAL OF APPLICATIONS:

### APPLICATION PROCEDURES:

Note: Some of the procedures in these instructions for transmitting applications differ from those in the Education Department General Administrative Regulations (EDGAR) (34 CFR 75.102). Under the Administrative Procedure Act (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on proposed regulations. However, these amendments make procedural changes only and do not establish new substantive policy. Therefore, under 5 U.S.C. 553(b)(A), the Secretary has determined that proposed rulemaking is not required.

### Pilot Project for Electronic Submission of Applications

In Fiscal Year 2003, the U.S. Department of Education is continuing to expand its pilot project of electronic submission of applications to include additional formula grant programs and additional discretionary grant competitions. The three programs in this announcement: Research and Innovation to Improve Services and Results for Children with Disabilities--CFDA 84.324, Technical Assistance and Dissemination to Improve Services and Results for Children with Disabilities--CFDA 84.326, and Technology and Media Services for Individuals with Disabilities--CFDA 84.327, are included in the pilot project. If you are an applicant for a grant under any of the three programs, you may submit your application to us in either electronic or paper format.

The pilot project involves the use of the Electronic Grant Application System (e-Application). Users of e-Application will be entering data on-line while completing their applications. You may not e-mail a soft copy of a grant application to us. If you participate in this voluntary pilot project by submitting an application electronically, the data you enter on-line will

be saved into a database. We request your participation in e-Application. We shall continue to evaluate its success and solicit suggestions for improvement.

If you participate in e-Application, please note the following:

- Your participation is voluntary.
- You will not receive any additional point value because you submit a grant application in electronic format, nor will we penalize you if you submit an application in paper format. When you enter the e-Application system, you will find information about its hours of operation.
- You may submit all documents electronically, including the Application for Federal Education Assistance (ED 424), Budget Information--Non-Construction Programs (ED 524), and all necessary assurances and certifications.
- After you electronically submit your application, you will receive an automatic acknowledgement, which will include a PR/Award number (an identifying number unique to your application).
- Within three working days after submitting your electronic application, fax a signed copy of the Application for Federal Education Assistance (ED 424) to the Application Control Center after following these steps:
  - (1) Print ED 424 from e-Application.
  - (2) The institution's Authorizing Representative must sign this form.
  - (3) Place the PR/Award number in the upper right hand corner of the hard copy signature page of the ED 424.
  - (4) Fax the signed ED 424 to the Application Control Center at (202) 260-1349.
- We may request that you give us original signatures on all other forms at a later date.

- Closing Date Extension in Case of System Unavailability: If you elect to participate in the e-Application pilot for the Research and Innovation to Improve Services and Results for Children with Disabilities Program, the Technical Assistance and Dissemination to Improve Services and Results for Children with Disabilities Program, or the Technology and Media Services for Individuals with Disabilities Program and you are prevented from submitting your application on the closing date because the e-Application system is unavailable, we will grant you an extension of one business day in order to transmit your application electronically, by mail, or by hand delivery. For us to grant this extension--

(1) You must be a registered user of e-Application, and have initiated an e-Application for this competition; and

(2)(a) The e-Application system must be unavailable for 60 minutes or more between the hours of 8:30 a.m. and 3:30 p.m., Washington, DC time, on the deadline date; or

(b) The e-Application system must be unavailable for any period of time during the last hour of operation (that is, for any period of time between 3:30 p.m. and 4:30 p.m., Washington, DC time) on the deadline date.

The Department must acknowledge and confirm these periods of unavailability before granting you an extension. To request this extension you must contact either (1) the person listed elsewhere in this notice under FOR FURTHER INFORMATION CONTACT or (2) the e-GRANTS help desk at 1-888-336-8930.

You may access the electronic grant application for the Research and Innovation to Improve Services and Results for Children with Disabilities Program, the Technical Assistance and Dissemination to Improve Services and Results for Children with Disabilities Program, or the Technology and Media Services for Individuals with Disabilities Program at:

<http://e-grants.ed.gov>

We have included additional information about the e-Application pilot project (see Parity Guidelines between Paper and Electronic Applications) on page E7.

If you want to apply for a grant and be considered for funding, you must meet the following deadline requirements:

(A) If You Deliver Your Application by Hand:

You or your courier must hand deliver the original and two copies of the application by 4:30 p.m. (Washington, DC time) on or before the deadline date. To help expedite our review of your application, we would appreciate your voluntarily including an additional 3 copies of your application. Deliver your application to:

U.S. Department of Education

Application Control Center

Attention: CFDA # 84.32\_\_

7<sup>th</sup> & D Streets, SW, Room 3671

Regional Office Building 3

The Application Control Center accepts application deliveries daily between 8:00 a.m. and 4:30 p.m. (Washington, DC time), except Saturdays, Sundays, and Federal holidays. The Center accepts application deliveries through the D Street entrance only. A person delivering an application must show identification to enter the building.

(B) If You Send Your Application by Mail:

You must mail the original and two copies of the application on or before the deadline date. To help expedite our review of your application, we would appreciate your voluntarily including

an additional 3 copies of your application. Mail your application to:

U.S. Department of Education

Application Control Center

Attention: CFDA # 84.32\_\_

7<sup>th</sup> & D Streets, SW, Room 3671

Regional Office Building 3

Washington, DC 20202-4725

You must show one of the following as proof of mailing:

- (1) A legibly dated U.S. Postal Service postmark.
- (2) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service.
- (3) A dated shipping label, invoice, or receipt from a commercial carrier.
- (4) Any other proof of mailing acceptable to the Secretary.

If you mail an application through the U.S. Postal Service, we do not accept either of the following as proof of mailing:

- (1) A private metered postmark.
- (2) A mail receipt that is not dated by the U.S. Postal Service.

(C) If You Submit Your Application Electronically:

You must submit your grant application through the Internet using the software provided on the e-Grants Web site (<http://e-grants.ed.gov>) by 4:30 p.m. (Washington, DC time) on the deadline date.

The regular hours of operation of the e-Grants Web site are 6:00 a.m. until 12:00 midnight

(Washington, DC time) Monday - Friday and 6:00 a.m. Until 7:00 p.m. Saturdays. The system is unavailable on the second Saturday of every month, Sundays, and Federal holidays. Please note that on Wednesdays the Web site is closed for maintenance at 7:00 p.m. (Washington, DC time).

Notes:

(1) The U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, you should check with your local post office.

(2) If you send your application by mail or if you or your courier deliver it by hand, the Application Control Center will mail a Grant Application Receipt Acknowledgment to you. If you do not receive the notification of application receipt within 15 days from the date of mailing the application, you should call the U.S. Department of Education Application Control Center at (202) 708-9493.

(3) If your application is late, we will notify you that we will not consider the application.

(4) You must indicate on the envelope and--if not provided by the Department--in Item 4 of the Application for Federal Education Assistance (ED 424 (exp. 11/30/2004)) the CFDA number--and suffix letter, if any -- of the competition under which you are submitting your application.

(5) If you submit your application through the Internet via the e-Grants Web site, you will receive an automatic acknowledgment when we receive your application.

#### PARITY GUIDELINES BETWEEN PAPER AND ELECTRONIC APPLICATIONS:

In FY 2003, the U.S. Department of Education is continuing to expand the pilot project, which began in FY 2000, which allows applicants to use an Internet-based electronic system for submitting applications. This competition is among those that have an electronic submission option available to all applicants. The system, called e-APPLICATION, formerly e-GAPS (Electronic Grant Application System), allows an applicant to submit a grant application to us electronically, using a current version of the applicant's Internet browser. To see e-APPLICATION visit the following address:

<http://e-grants.ed.gov>

Users of e-APPLICATION, a data driven system, will be entering data on-line while completing their applications. This will be more interactive than just e-mailing a soft copy of a grant application to us. If you participate in this voluntary pilot project by submitting an application electronically, the data you enter on-line will go into a database and ultimately will be accessible in electronic form to our reviewers.

This pilot project continues the Department's transition to an electronic grant award process. In addition to e-APPLICATION, the Department plans to expand the number of discretionary programs using the electronic peer review (e-READER) system and to increase the participation of discretionary programs offering grantees the use of the electronic annual performance reporting (e-REPORTS) system.

To help ensure parity and a similar look between electronic and paper copies of grant applications, we are asking each applicant that submits a paper application to adhere to the following guidelines:

- Submit your application on 8 ½" by 11" paper.

- Leave a 1-inch margin on all sides.
- Use consistent font throughout your document. You may also use boldface type, underlining, and italics. However, please do not use colored text.
- Please use black and white, also, for illustrations, including charts, tables, graphs and pictures.
- For the narrative component, your application should consist of the number and text of each selection criterion followed by the narrative. The text of the selection criterion, if included, does not count against any page limitation.
- Place a page number at the bottom right of each page beginning with 1; and number your pages consecutively throughout your document.

## Appendix

### **Intergovernmental Review of Federal Programs**

This appendix applies to each program that is subject to the requirements of Executive Order 12372 (Intergovernmental Review of Federal Programs) and the regulations in 34 CFR part 79.

The objective of the Executive order is to foster an intergovernmental partnership and to strengthen federalism by relying on State and local processes for State and local government coordination and review of proposed Federal financial assistance.

Applicants must contact the appropriate State Single Point of Contact to find out about, and to comply with, the State's process under Executive Order 12372. Applicants proposing to perform activities in more than one State should immediately contact the Single Point of Contact for each of those States and follow the procedure established in each of those States under the Executive order. A listing containing the Single Point of Contact for each State is included in this appendix.

In States that have not established a process or chosen a program for review, State, areawide, regional, and local entities may submit comments directly to the Department.

Any State Process Recommendation and other comments submitted by a State Single Point of Contact and any comments from State, areawide, regional, and local entities must be mailed or hand-delivered by the date indicated in the actual application notice to the following address:

The Secretary  
EO 12372--CFDA# [commenter must insert number--including suffix letter, if any]  
U.S. Department of Education Room 7W301  
400 Maryland Avenue, SW.  
Washington, D.C. 20202

Proof of mailing will be determined on the same basis as applications (see 34 CFR 75.102). Recommendations or comments may be hand-delivered until 4:30 p.m. (Washington, DC time) on the date indicated in the actual application notice.

**PLEASE NOTE THAT THE ABOVE ADDRESS IS NOT THE SAME ADDRESS AS THE ONE TO WHICH THE APPLICANT SUBMITS ITS COMPLETED APPLICATION. DO NOT SEND APPLICATIONS TO THE ABOVE ADDRESS.**

This publication by the U.S. Department of Education is an unofficial version of the State Single Point of Contact (SPOC) List published by the Office of Management and Budget (OMB). This publication incorporates the most recent revisions made by OMB. The Department has made every effort to ensure the accuracy of the information contained in this unofficial version. However, the only official version of the State Single Point of Contact (SPOC) List is posted on the Grants Management section of the OMB web site

<http://www.whitehouse.gov/omb/grants/spoc.html>. You may save a text version of this document at the aforementioned site. Please note it will be necessary to put a row of space between each state listing.

## STATE SINGLE POINTS OF CONTACT (SPOCs)

Executive Order 12372, "Intergovernmental Review of Federal Programs," was issued with the desire to foster the intergovernmental partnership and strengthen federalism by relying on State and local processes for the coordination and review of proposed Federal financial assistance and direct Federal development. The Order allows each State to designate an entity to perform this function. Below is the official list of those entities. For those States that have a home page for their designated entity, a direct link has been provided on the official version <http://www.whitehouse.gov/omb/grants/spoc.html>.

**States that are not listed on this page have chosen not to participate in the intergovernmental review process, and therefore do not have a SPOC. If you are located within one of these States, you may still send application material directly to a Federal awarding agency.**

Contact information for Federal agencies that award grants can be found in Appendix IV of the Catalog of Federal Domestic Assistance. [<http://www.cfda.gov/public/cat-app4-index.htm>]

## NOTICE TO ALL APPLICANTS

The purpose of this enclosure is to inform you about a new provision in the Department of Education's General Education Provisions Act (GEPA) that applies to applicants for new grant awards under Department programs. This provision is Section 427 of GEPA, enacted as part of the Improving America's Schools Act of 1994 (Pub. L. 103-382).

### *To Whom Does This Provision Apply?*

Section 427 of GEPA affects applicants for new grant awards under this program. **ALL APPLICANTS FOR NEW AWARDS MUST INCLUDE INFORMATION IN THEIR APPLICATIONS TO ADDRESS THIS NEW PROVISION IN ORDER TO RECEIVE FUNDING UNDER THIS PROGRAM.**

(If this program is a State-formula grant program, a State needs to provide this description only for projects or activities that it carries out with funds reserved for State-level uses. In addition, local school districts or other eligible applicants that apply to the State for funding need to provide this description in their applications to the State for funding. The State would be responsible for ensuring that the school district or other local entity has submitted a sufficient section 427 statement as described below.)

### *What Does This Provision Require?*

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs.

This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, you should determine whether these or other barriers may prevent your students, teachers, etc. from such access or participation in, the Federally-funded project or activity. The description in your application of steps to be taken to overcome these barriers need not be lengthy; you may provide a clear and succinct description of how you plan to address those barriers that are applicable to your circumstances. In addition, the information may be provided in a single narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for Federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve to high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it to eliminate barriers it identifies.

### *What are Examples of How an Applicant Might Satisfy the Requirement of This Provision?*

The following examples may help illustrate how an applicant may comply with Section 427.

(1) An applicant that proposes to carry out an adult literacy project serving, among others, adults with limited English proficiency, might describe in its application how it intends to distribute a brochure about the proposed project to such potential participants in their native language.

(2) An applicant that proposes to develop instructional materials for classroom use might describe how it will make the materials available on audio tape or in braille for students who are blind.

(3) An applicant that proposes to carry out a model science program for secondary students and is concerned that girls may be less likely than boys to enroll in the course, might indicate how it intends to conduct "outreach" efforts to girls, to encourage their enrollment.

We recognize that many applicants may already be implementing effective steps to ensure equity of access and participation in their grant programs, and we appreciate your cooperation in responding to the requirements of this provision.

#### Estimated Burden Statement for GEPA Requirements

The time required to complete this information collection is estimated to vary from 1 to 3 hours per response, with an average of 1.5 hours, including the time to review instructions, search existing data resources, gather and maintain the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: U.S. Department of Education, Washington, DC 20202-4651.

**Novice Applicant (See 34 CFR 75.225).** For discretionary grant programs under which the Secretary gives special consideration to novice applications, a novice applicant means any applicant for a grant from ED that—

- Has never received a grant or subgrant under the program from which it seeks funding;
- Has never been a member of a group application, submitted in accordance with 34 CFR 75.127-75.129, that received a grant under the program from which it seeks funding; and
- Has not had an active discretionary grant from the Federal government in the five years before the deadline date for applications under the program. ## PROTECTION OF HUMAN SUBJECTS IN RESEARCH

### I. Definitions and Exemptions

#### A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department's regulations, and the research activity will involve use of human subjects, as defined in the regulations.

#### —Research

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as "a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge." *If an*

*activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge it is research.* Activities which meet this definition constitute research whether or not they are

conducted or supported under a program which is considered research for other purposes. For example, some demonstration and service programs may include research activities.

#### —Human Subject

The regulations define human subject as "a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information." *(1) If an activity involves obtaining information about a living person by manipulating that person or that person's environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met. (2) If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met.* [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

### B. Exemptions.

Research activities in which the **only** involvement of human subjects will be in one or more of the following six categories of **exemptions** are not covered by the regulations:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects' responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects' financial standing, employability, or reputation. *If the subjects are children, exemption 2 applies only to research involving educational tests and observations of public behavior when the investigator(s) do not participate in the activities being observed. Exemption 2 does not apply if children are surveyed or interviewed or if the research involves observation of public behavior and the investigator(s) participate in the activities being observed.* [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

(3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally

identifiable information will be maintained throughout the research and thereafter.

(4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

(6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

## **II. Instructions for Exempt and Nonexempt Human Subjects Research Narratives**

If the applicant marked “Yes” for Item 12 on the ED 424, the applicant must provide a human subjects “exempt research” or “nonexempt research” narrative and insert it immediately following the ED 424 face page.

### **A. Exempt Research Narrative.**

If you marked “Yes” for item 12 a. and designated exemption numbers(s), provide the “exempt research” narrative. The narrative must contain sufficient information about the involvement of human subjects in the proposed research to allow a determination by ED that the designated exemption(s) are appropriate. The narrative must be succinct.

### **B. Nonexempt Research Narrative.**

If you marked “No” for item 12 a. you must provide the “nonexempt research” narrative. The narrative must address the following seven points. Although no specific page limitation applies to this section of the application, be succinct.

(1) **Human Subjects Involvement and Characteristics:** Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria

for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable

(2) **Sources of Materials:** Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) **Recruitment and Informed Consent:** Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the circumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) **Potential Risks:** Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) **Protection Against Risk:** Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) **Importance of the Knowledge to be Gained:** Discuss the importance of the knowledge gained or to be gained as a result of the proposed research. Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

(7) **Collaborating Site(s):** If research involving human subjects will take place at collaborating site(s) or other performance site(s), name the sites and briefly describe their involvement or role in the research.

*Copies of the Department of Education’s Regulations for the Protection of Human Subjects, 34 CFR Part 97 and other pertinent materials on the protection of human subjects in research are available from the Grants Policy and Oversight Staff, Office of the Chief Financial Officer, U.S. Department of Education, Washington, D.C. 20202-4248, telephone: (202) 708-8263, and on the U.S. Department of Education’s Protection of Human Subjects in Research Web Site at <http://www.ed.gov/offices/OCFO/humansub.html>*

IN U.S. DEPARTMENT OF EDUCATION  
GRANT AND CONTRACT PROGRAMS**

***GRANTS***

Applicants for grants from the U.S. Department of Education (ED) have to compete for limited funds. Deadlines assure all applicants that they will be treated fairly and equally, without last minute haste. For these reasons, ED must set strict deadlines for grant applications. Prospective applicants can avoid disappointment if they understand that:

**Failure to meet a deadline will mean that an applicant will be rejected without any consideration.**

The rules, including the deadline, for applying for each grant are published, individually, in the Federal Register. Six-month or one-year subscriptions to the daily, official Federal Register may be ordered from the U. S. Government Printing Office at the following url:

<http://bookstore.gpo.gov/regulatory/fed-reg.html>. The Federal Register Complete Service is also available in microfiche on the same web page. In addition, the Federal Register is available on-line for free on Government Printing Office (GPO) Access: <http://www.access.gpo.gov/nara>.

Depository Library location and Federal Register services:

All of ED's RFP's are now available on-line for downloading at the following url: <http://www.eps.gov/spg/ED/index.html>.

Offerors are advised to be guided solely by the contents of the CBD synopsis and the instructions contained in the RFP. Questions regarding the submission of offers should be addressed to the

## NOTICE TO ALL APPLICANTS: The Government Performance and Results Act (GPRA)

### What is GPRA

The Government Performance and Results Act of 1993 is a straightforward statute that requires all Federal agencies to manage their activities with attention to the consequences of those activities. Each agency is to clearly state what it intends to accomplish, identify the resources required, and periodically report its progress to the Congress. In doing so, it is expected that GPRA will contribute to improvements in accountability for the expenditures of public funds, improve Congressional decision-making through more objective information on the effectiveness of Federal programs, and promote a new government focus on results, service delivery, and customer satisfaction.

How has the United States Department of Education responded to the GPRA Requirements?

As required by GPRA, the United States Department of Education (the Department) has prepared a strategic plan for 1998-2002. This plan reflects the Department's priorities and integrates them with its mission and program authorities and describes how the Department will work to improve education for all children and adults in the United States. The Department's goals, as listed in the plan, are:

- Goal 1:* Help all students reach challenging academic standards so that they are prepared for responsible citizenship, further learning, and productive employment.
- Goal 2:* Build a solid foundation for learning for all children.
- Goal 3:* Ensure access to postsecondary education and lifelong learning.
- Goal 4:* Make the United States Department of Education a high performance organization by focusing on results, service quality, and customer satisfaction.

## DUNS Number Instructions

D-U-N-S No.: Please provide the applicant's D-U-N-S Number. You can obtain your D-U-N-S Number at no charge by calling 1-800-333-0505 or by completing a D-U-N-S Number Request Form. The form can be obtained via the Internet at the following URL:

<http://www.dnb.com/dbis/aboutdb/intlduns.htm>

The D-U-N-S Number is a unique nine-digit number that does not convey any information about the recipient. A built in check digit helps assure the accuracy of the D-U-N-S Number. The ninth digit of each number is the check digit, which is mathematically related to the other digits. It lets computer systems determine if a D-U-N-S Number has been entered correctly.

Dun & Bradstreet, a global information services provider, has assigned D-U-N-S numbers to over 43 million companies worldwide.
